

Driving a Greener Tomorrow. Shaping a Sustainable Future.

Empowering Businesses. Protecting Our Planet.

ESGright is a GRI Certified Training Partner for Asia and the Pacific, led by specialists with over 40 years of combined experience in corporate sustainability, ESG, market research, governance, and global advisory. In 2024, ESGright was ranked in fifth (5th) position in Worldwide* by GRI in terms of the number of participants trained. That same year, we were ranked in fourth (4th) position in the Asia Pacific region.

Your ESG Journey Starts Here.

Why ESG is Non-Negotiable:
ESG is no longer optional — it is the standard by which stakeholders, regulators, and investors measure success.

Over 81% of companies in Asia Pacific have adopted GRI Standards.

Companies and organisations are aligning sustainability reporting to include Carbon Emissions reports, Energy Management, Water usage, Waste disposal and Human Rights performance.

Regulatory bodies are mandating sustainability reporting.

We simplify ESG adoption with practical guidance, deep industry insights, and globally recognised frameworks — ensuring your first steps are confident and compliant. These are a list of our services.

Training and Certification

- GRI Certified Sustainability Professional
- GRI Standards Update 2021
